1234 SAMPLE CRESCENT

VANCOUVER BC

This is a sample of the brochure REV Studio lays out for a listing. The photographs and the floor plan are from one of our shoots; the address, the agent and the brokerage are fictional. The front door opens to a foyer beside the stair, with the living room and the dining room at the front of the house. At the back are the family room, with a sliding door to a covered patio, and a kitchen with a breakfast area; a powder room and the laundry are off the hall, and the single garage is beside the front door. Upstairs are the primary bedroom, with a walk-in closet and its own bathroom, two more bedrooms, a sun room with windows on two walls and a second bathroom. By our floor plan the home is 2,340 square feet on two floors, with a two-bedroom guest suite at the back of the main floor.
